

# Modbus connection cable

## Bus connection between three IKIs

The cable is used for easy wiring of a serial ModbusRTU/RS-485 connection between three IKIs. The cable is pre-assembled with connectors suitable for the IKI and has the required terminating resistor integrated. For the connection in the direction of the RTU, a terminal connection for wire end sleeves is provided. The cable length between the IKIs is 60 cm.

## Versions

Item number	Description
2502486	Modbus connection cable, 2 x 60 cm, incl. terminating resistor
2502486_H001	Modbus connection cable, 3 x 60 cm, incl. terminating resistor

## Technical Data

### General data

Article number	2502486_H001
Product designation	Modbus connection cable, 3 x 60 cm, incl. terminating resistor
Scope of delivery	Cable with 2 x 60 cm to connect three IKIs to the RTU (RS-485, Modbus)
Usable with	IKI-22, IKI-23

### Dimensions and type of installation

Total length L	1800 mm
