

This Balanced Core CT has a separable core and is suitable for retrofitting on touch-proof shielded medium-voltage cables.

Features

The Balanced Core CT can be used with the IKI devices to measure the total currents for fault detection.

Technical Data

General data

Article number	2504381
Quantity unit	Piece
Product designation	Balanced core CT IKI-GSU pluggable connection Ø 130mm

Usable with	IKI-10 Light-W, IKI-10 Light-W Flag, IKI-20
-------------	---

Operating conditions

Protection class	IP54
Inner diameter	130 mm
Directional current sensing	-
Installation location	Screened cables
