

# Wall-mounted housing for CAPDIS and IKI devices

This wall-mounted housing allows easy installation of one CAPDIS device or one IKI device. When retrofitting distribution network stations, intelligent components can be easily and clearly installed with this wall-mounted housing.

## Application areas

Usually, wall-mounted enclosures are installed in direct relation to the respective feeder (e.g. on the opposite side).

- **Voltage Detecting Systems:** CAPDIS-S1x, CAPDIS-S2x
- **Fault indicators:** IKI-20

## Technical Data

### General data

Article number	2510448_H012
Quantity unit	Piece
Product designation	wall housing 94 x 130 x 81mm device inside   front closed
Usable with	CAPDIS-S1, CAPDIS-S2

### Dimensions and type of installation

Wall housing - installation type	Device plugged into front cutout
Wall housing - installation instructions	Mounting bracket and 2x M20 not pre-assembled
Housing material	Plastic

### Operating conditions

Protection class	IP66, IP67
------------------	------------

# Wall-mounted housing for CAPDIS and IKI devices

## Accessories

Article number	Product designation
3503325	Mounting frame, cutout 92 x 45 mm
3500893	Mounting base for C-rails with thread (2 pieces necessary)
